Let’s Explore the Historic Area!

A social narrative for visiting the North Lane
When we enter the historic area, we can turn left on the path to explore the North Lane in the historic area.
I can visit the Upper Garden. I can look at the plants in the garden.

Many people like plants. I will try not to pick them so other people can enjoy them.
I can visit some of the slave quarters in the historic area.

Many enslaved people lived and worked at Mount Vernon.
At the blacksmith shop staff will teach me about how metal tools were made.

I might smell burning coal, hear banging metal, and feel heat.
We can explore some of the outbuildings.

If I want, I can use the I Spy worksheet to keep track of what I see.
